

Plate Processors

a key piece

of the productivity puzzle

Kodak

Reliable, high-quality plate processors for every application

Thermal plate processing

Kodak Mercury T-HD Plate Processors

Kodak Mercury T-HD Plate Processors are our premium processors. Designed for heavy-duty applications, these robust processors deliver outstanding performance with all **Kodak** Thermal Digital Plates.

Advanced features, such as automatic replenishment, rinse and gum stages, an electronic management system that monitors and controls all processing functions, and a programmable interface to the platesetter, enable you to maximise your platemaking productivity. In addition, **Mercury** T-HD Processors are easy to maintain and operate cleanly and efficiently.

Accredited for:

Kodak Thermal Platinum Digital Plates
Kodak Thermal Gold Digital Plates
Kodak Electra XD Thermal Plates
Kodak NS Digital Newspaper Plates

Sizes:
85 cm, 125 cm, 156 cm

Kodak S Plate Processors

Kodak S Plate Processors are created exclusively for high-quality, medium-duty processing of **Kodak Sword Excel** Thermal Plates. They feature a unique spray bar and brush configuration that is designed for consistent processing of the two-layer **Sword Excel** Plate.

The processors are extremely reliable, easy to maintain and are designed for the minimum footprint possible. For high-quality, medium-duty processing of **Sword Excel** Plates, users will enjoy the simplicity of the S Plate Processor.

Accredited for:

Kodak Sword Excel Thermal Plates

Sizes:
70 cm, 85 cm, 125 cm, 165 cm

Kodak offers a full range of plate processors that provide consistent and productive processing of **Kodak Plates**. Along with our platesetters, workflow, and digital plates, **Kodak Plate Processors** are an important piece of Kodak's complete prepress solutions portfolio, optimized to work efficiently and backed by **Kodak Service & Support**.

Photopolymer plate processing

Kodak Q Plate Processors

Kodak Q Plate Processors are a remanufactured line of products offered for the processing of **Kodak Plates**. Simple in design and style, they offer a small footprint and standard, reliable processing of **Kodak Plates**.

These all-purpose processors offer ergonomic design and are easy to use and service. Q Processors can be used for a wide range of conventional and digital plates and can be easily paired with ovens and rinse gum units for a mix and match modular look.

Accredited for:

Kodak Thermal Platinum Digital Plates
Kodak Thermal Gold Digital Plates
Kodak NS Digital Newspaper Plates

Sizes:
85 cm, 125 cm, 150 cm

Kodak Mercury P-HD Plate Processors

Kodak Mercury P-HD Plate Processors are heavy-duty processors designed to meet the demanding needs of the newspaper industry and high-volume commercial users. They offer high speed operation and reliable hot air technology that help ensure highly accurate processing of photopolymer plates. The system features a touch-screen control panel for user-friendly operation and a snap lock bearing system and easy filter access for simple machine maintenance.

A fully automated replenishment system and integrated water-saving system help ensure low operating costs.

Mercury P-HD Plate Processors are designed for medium- to high-volume applications.

Accredited for:

Kodak ThermalNews Gold Digital Plates
Kodak VioletNews Digital Plates
Kodak Violet Print Digital Plates

Sizes:
85 cm, 125 cm

Kodak P-LD Plate Processors

Ideal for small or medium-sized commercial and newspaper applications, **Kodak P-LD** Plate Processors are medium-duty processors with an average annual throughput of up to 10,000 m². Each unit can stand alone or be incorporated into an in-line operation. The P-LD Processor has a small footprint, and its design facilitates easy maintenance.

Advanced features such as hot air preheat, snap lock bearing systems, fully automated replenishment and double-sided drying help maximize plate processing quality and efficiency.

Accredited for:

Kodak ThermalNews Gold Digital Plates
Kodak VioletNews Digital Plates
Kodak Violet Print Digital Plates

Sizes:
68 cm, 85 cm

Plate line equipment

Kodak provides full plate processing line equipment including plate stackers, rinse gum units, conveyors, plate turners and more. Prebake and postbake ovens, including the energy-saving **Kodak Quick Bake Oven**, are also available.

Global service and support organization

Kodak Solutions are supported by a world-class team of dedicated sales, professional consulting and service staff. Our global service and support organization is fast, effective and targeted.

A legacy and future of innovation

Kodak is an industry leader in digital plate processing systems. We invented thermal CTP technology and have been committed to delivering innovative digital plate solutions ever since. **Kodak Plate Processing Equipment** delivers exceptional ease of use, quality and performance.
